• Working on developing full-stack applications using MongoDB, Express.js, React.js, and Node.js.	
• Designing and implementing responsive UI components using HTML, CSS, JavaScript, and React.js.	
• Building RESTful APIs and integrating them with front-end applications for seamless user experience.	
• Implementing authentication, authorization, and secure data handling using JWT and bcrypt.	

PROJECTS

College Management System (CMS)

- A web-based system for managing student records, courses, and faculty using MERN Stack.
- Includes role-based authentication for students, faculty, and admin.
- Real-time notifications and dynamic dashboard for user management.

NotePad Application (Java Swing)

- Developed a NotePad application using Java Swing for a simple and user-friendly text editor.
- Implemented file operations (New, Open, Save, Save As) using JFileChooser.
- Added text editing features like Cut, Copy, Paste, Undo, and Redo.
- Ensured cross-platform compatibility using Java's built-in libraries.

StreamFlowz.

- Developed a music entertainment platform with dynamic song lists and engaging animations.
- Implemented custom music controls using JavaScript for a seamless playback experience.
- Designed an interactive UI/UX with CSS animations for visual enhancements.

CERTIFICATIONS

- Frontend Web Developer Certificate – Infosys Springboard
- Internship Certificate & LOR – SkillsCraft Technologies

ADDITIONAL INFORMATION

- Strong problem-solving and analytical skills
- Quick learner with the ability to adapt to new technologies efficiently.
- Effective team player with excellent collaboration and communication skills.

LANGUAGES KNOWN

Ability to speak various languages such as English, Hindi, Urdu, Telugu.
